Hi I spoke with legal, comms, tax and we have everything underway. Legal working on draft docs for the MMs to sign; comms and I are working on draft copy, and we will update you by EOD with progress. To manage expectations - Given MMs need to execute these (not yet drafted) contracts, we will not start buy backs until earliest tomorrow, maybe Over weekend. But drafting has started, we are Hustling on all fronts, and will keep you posted. Lmk if any questions

[REDACTED] came back - and after discussing with outside counsel, they mentioned some reg concerns given their SEC inquiry and suggested we may want to explore other ways to do this creatively that is more in line with our current contract - i.e. using derivatives, so, for example, we could sell them puts and then they buy xrp in the open market to cover their short. I explained that we are happy to "explore" those alternatives - however, in the interest of moving things along asap, let's start with small buy bac...
